

IATSE LOCAL 891

International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts
of the United States, its Territories and Canada · British Columbia & Yukon

Jul. 28, 2010

IATSE International has provided us with information on legal content sites, an excerpted version is provided below. Please read it and pass it on to your colleagues, family, and friends.

While there are many websites where consumers can legally view streamed content, there are many illegal streaming sites where operators will solicit users to provide payment to purchase "subscriptions" or "memberships" or otherwise pay for illegal content. These sites often feature advertisements for legitimate products or services alongside illegal streaming of unauthorized movie and television content. They may use trademarks and cover art of well-known studios and distribution companies or provide a plot summary of a movie or a list of the cast of characters. Website operators of such illegal sites purposely use these techniques to fool consumers into believing that their websites are legal. Many of these sites have connections to organized crime groups which have been linked to other crimes including child pornography, human trafficking and terrorism.

The following link contains lists of legal content sites for downloading/streaming. Please consult this list to ensure you are obtaining online content from a legal source. Additional sites will be added on an ongoing basis, so check back periodically for new links.
